

Initial Sponsorship in Research Scholar/Non-clinical Programs of Observation, Consultation, Teaching, or Research

Application Processing Instructions

The checklist below provides an overview of the basic requirements for applicants seeking sponsorship for participation in a research / non-clinical program of observation, consultation, teaching, or research. Note that submission of a complete on-line application requires close coordination between each applicant and the Training Program Liaison (TPL) at the research hospital / institution. While ECFMG generally reserves four to six weeks from the time all required documentation is received for review and processing, it is important to note that submission of all required documentation at the same time may significantly shorten processing time. Therefore, applicants and TPLs are encouraged to upload all required documentation on the same day, when possible.

Any application deficiencies and/or requests for additional documentation will be communicated directly by ECFMG to the TPL via e-mail. Applicants are able to view deficiency letters in OASIS. It is recommended that applicants and/or TPLs retain a copy of all uploaded materials.

STEPS IN THE APPLICATION PROCESS:

The application process requires completion of the following steps:

1. Through EVNet, TPL submits an on-line appointment profile
2. Through EVNet, TPL uploads the necessary supporting documents for each applicant
3. Through OASIS, applicant accepts on-line appointment profile, pays the \$370 administrative/application fee, completes the electronic application, and uploads any documentation (not already submitted by the TPL) needed to complete application

NOTE: All uploaded documents must be in PDF format and must be uploaded one document at a time.

Documentation Required of all Initial Applicants (research scholar)
