ECFMG Certification

ECFMG Certification assesses whether international medical graduates (IMGs) are ready to enter U.S. residency and fellowship programs that are accredited by the Accreditation Council for Graduate Medical Education (ACGME). ACGME requires IMGs to be certified by ECFMG before entering such programs. ECFMG Certification is also a requirement for IMGs to take the final Step of the United States Medical Licensing Examination® (USMLE) and to obtain an unrestricted license to practice medicine in the United States.

ECFMG Certification Requirements

- Confirm medical school meets ECFMG's requirements.
- Complete Application for ECFMG Certification.
- Satisfy medical science examination and clinical skills requirements (currently USMLE Step 1, Step 2 CK, and Step 2 CS).
- Primary-source verification of the final medical diploma and final medical school transcript.

This information is subject to change.
